## Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

**Please explain the reasons for your response.**

It's my firm belief that only decriminalisation, close support for addicts and supervised treatment centres will undermine this lucrative multi national black market

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

It has to be legislation. Those manning and operating treatment centres etc must be free from any risk of prosecution

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Fully supportive

**Please explain the reasons for your response.**

The street trade has to be undermined

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Fully supportive

**Please provide reasons for your response, including on the proposed conditions for licensing (see pages 12 to 14 of the consultation document) and on the proposal that health and social care partnerships are responsible for licensing and scrutinising OPCs?**

I repeat the street trade has to be undermined

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Fully supportive

**Please provide reasons for your response, including views on the proposed functions of the SDDC (see pages 14 to 16 of the consultation document) and on how it should operate in practice.**

I would expect any such council to monitor the progress of all systems and treatments, highlight successes and recommend changes as necessary.

## Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

no overall change in costs

**Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.**

The cost of operating treatment centres etc would be offset by reduced spending in the criminal justice system

## Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

The changes suggested can only be beneficial. The pressure on young teenagers would be reduced, and gang activities in our communities would reduce

## Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

It would benefit all of the above.  
Once the sales motive is removed from this trade. However to be fully effective our youth services would require to be rebuilt.
