

Drug Death Prevention (Scotland) Bill

About You

Q1. Are you responding as:

An individual

Q2. Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Q3. Please select the category which best describes your organisation:

No Response

Q4. Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your name or the name of your organisation. (Note: The name will not be published if you have asked for the response to be anonymous or "not for publication".)

Paul Morris

Q5. Please provide a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. (Note: We will not publish these contact details.)

XXXXXXXXXXXXXXXXXXXX

Q6. Data protection declaration

In order to proceed, please confirm that you have read and understood the Privacy Notice contained on Page 1

I confirm that I have read and understood the Privacy Notice to this consultation which explains how my personal data will be used.

Q7. If you are under 12 and making a submission, we will need to contact you to ask your parent or guardian to confirm to us that they are happy for you to send us your views.

No Response

Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

Please explain the reasons for your response.

It's a logical step to reduce drug deaths in Scotland.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is required.

Also legalisation of so called softer drugs needs to be revisited. A Portuguese style drugs policy is more appropriate.

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Fully supportive

Please explain the reasons for your response.

These kind of centres have made a positive in various parts of the world. Scotland's drug death shame needs addressed, the current policies are inadequate & more radical measures are needed.

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Fully supportive

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Fully supportive

Please provide reasons for your response, including views on the proposed functions of the SDDC (see pages 14 to 16 of the consultation document) and on how it should operate in practice.

Naturally having a council would give a wide variety of expertise but also make them accountable for the new measures.

Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some reduction in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

I don't think this question is appropriate because your putting a price on people's lives. I believe that it would reduce deaths, hospitalisation & injuries, naturally it would reduce the costs associated with these.

Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

No Response

Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

It would reduce the amount of needles & other drug paraphernalia on our streets. It would also make areas of known drug use be more accessible to folks.
