

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully opposed

Please explain the reasons for your response.

I don't think overdose prevention centre are a good way to spend money. The fact is drugs are illegal always have been and always will be. Having actually stayed in the east end and seeing drug users pretty much everywhere you turn having centre for them to take illegal drugs in a legal place just won't do any Justice to the public nor the user. The drug user must want to come off the drug them self with some help however no one can force them too. Having programs creating an actual rehab centre for drug users and give them something to live for gaining experience in something ie brick work etc. Not giving them some privacy to take drugs and continue the drug scene.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

1-New Rehab facility with a programme of gaining experience of a trade. They must be willing to comply with the rules.

2- Only people that want a better life and to achieve coming off drugs would be able to take part.
