My experience is knowing people with addiction issues. I also have been concerned with the approach of Edinburgh City Council who some years ago now replaced an exceptionally good approach i.e local agreements between charities and NHS. The system provided good addiction and health care services. I refer you to the Castle Project. The changes i.e. roaming addiction workers - whose main contact was phone support for NHS services. I have spoken to a number of workers who remain concerned as to this system. I understand the Council being unable to financially support the previous system which labour intensive however it provided an all round service. [REDACTED]
