Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Partially opposed

Please explain the reasons for your response.

Whilst the idea of the Bill is sound in legal and financial respects, you simply haven't provided enough (indeed any?) support from users or potential beneficiaries. I am not talking about service providers here, but people.

The academic case may be sound, but I foresee a huge white elephant here that is utterly depressing in reality.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Tackle the root causes of addiction, which requires a fundamental political change of direction in the country. Unfortunately, this political change doesn't seem to be on offer from most corners of the political spectrum.

In the meantime then, accept that some won't make it. Be grown up around the death conversation. Tackle stigma (your logo is terrible by the way). More support for recovery communities.

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Partially opposed

Please explain the reasons for your response.

White elephant full of professionals with no users in sight

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Do not wish to express a view

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Fully opposed

Please provide reasons for your response, including views on the proposed functions of the SDDC (see pages 14 to 16 of the consultation document) and on how it should operate in practice. Who'd want to sit on it other than those with something to gain/protect, hence negating any notion of independence?

Set up a network of user/ex-user councils instead - and listen to them

Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?
