Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

Please explain the reasons for your response.

Scotland has a huge problem with drugs and the country needs more autonomy to develop a more pragmatic and enlightened approach to solving this.

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes, I think we need to treat the issue of drugs as a health problem and to support addicts better with overdose support. We should consider ways of pushing organised crime out of the picture by careful legalisation and medical provision of substances and then weaning addicts off their addiction

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Fully supportive

Please explain the reasons for your response.

Makes perfect sense. They are human beings who are addicted not criminals

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Fully supportive

Please provide reasons for your response, including on the proposed conditions for licensing (see pages 12 to 14 of the consultation document) and on the proposal that health and social care partnerships are responsible for licensing and scrutinising OPCs?

Careful licensing and management

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Fully supportive

Please provide reasons for your response, including views on the proposed functions of the SDDC (see pages 14 to 16 of the consultation document) and on how it should operate in practice.

Makes perfect sense

Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

no overall change in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

Saving lives, turning lives around will cost society less money over

Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

No comment

Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

Getting more drug users off the street will improve city centre environments
