

Drug Death Prevention (Scotland) Bill

About You

Q1. Are you responding as:

An individual

Q2. Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Q3. Please select the category which best describes your organisation:

No Response

Q4. Please choose one of the following:

I would like this response to be published anonymously

If you have requested anonymity or asked for your response not to be published, please give a reason. (Note: your reason will not be published.)

XXXXXXXXXXXXXXXXXXXX

Please provide your name or the name of your organisation. (Note: The name will not be published if you have asked for the response to be anonymous or "not for publication".)

XXXXXXXXXXXX

Q5. Please provide a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. (Note: We will not publish these contact details.)

XXXXXXXXXXXXXXXXXXXX

Q6. Data protection declaration

In order to proceed, please confirm that you have read and understood the Privacy Notice contained on Page 1

I confirm that I have read and understood the Privacy Notice to this consultation which explains how my personal data will be used.

Q7. If you are under 12 and making a submission, we will need to contact you to ask your parent or guardian to confirm to us that they are happy for you to send us your views.

No Response

Your Views On The Proposal

Q8. Which of the following best expresses your view of the proposed Bill? (please note this is a compulsory question)

Fully supportive

Please explain the reasons for your response.

Anything which reduces the death rate is welcome, but this proposal has been proved to make a significant difference

Q9. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

I think your Bill should be enshrined in legislation to ensure it is as effective as possible

Q10. Which of the following best expresses your view of the proposal to establish overdose prevention centres?

Fully supportive

Please explain the reasons for your response.

Quite simply because it will help to reduce the current high death rate in Scotland using a tried and tested method

Q11. Which of the following best expresses your view of the proposal for a licensing regime to enable the establishment of overdose prevention centres?

Fully supportive

Please provide reasons for your response, including on the proposed conditions for licensing (see pages 12 to 14 of the consultation document) and on the proposal that health and social care partnerships are responsible for licensing and scrutinising OPCs?

Licensing is essential to ensure the system is run by professionals in a controlled manner

Q12. Which of the following best expresses your view of the proposal for a new body, the Scottish Drugs Deaths Council?

Fully supportive

Please provide reasons for your response, including views on the proposed functions of the SDDC (see pages 14 to 16 of the consultation document) and on how it should operate in practice.

The Scottish Government have totally failed to reduce drug related deaths for years and recent figures show that this is still the case in spite of all of their promises. An independent body is the only way to overcome this ongoing failure of policy.

Financial Implications

Q13. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

a significant reduction in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

It will reduce the number of deaths, reduce the number of drug related hospital admissions and reduce the number of people who contact aids and other blood born diseases.

Equalities

Q14. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

No Response

Sustainability

Q15. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? If you do not have a view then skip to next question.

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

No Response
